

Fly yourself to the Barrier

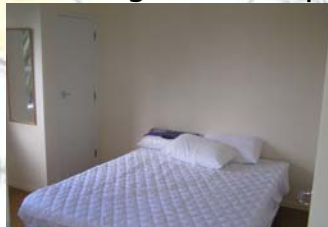

With only your footprints in the sand come and explore New Zealand the way it was years ago. A world away from the hustle and bustle of the city enables you to enjoy Great Barrier Island's peace and tranquillity. You will find steep forest covered ranges on the west coast and on the eastern coast sweeping white sandy beaches, tidal creeks and wetlands. The absence of possums has allowed plant life to flourish and there is an abundance of bird life including a number of threatened & endangered species.

The Waikato Aero Club has recently refurbished its lodge on Great Barrier Island. Better than ever the newly renovated Lodge now features all the comforts of home. For only \$20.00 pp per night and just across the road from the Claris Airfield, it takes a lot to beat it.

After a fire damaged the property the club has taken the opportunity to completely refurbish the Lodge. The improvements include a new kitchen, new appliances as well as new toilet and shower units. The 2 upstairs bedrooms feature queen beds with other rooms include 4 bunks per room, sleeping a total of 18 people.

The 2 upstairs bedrooms feature queen beds with other rooms include 4 bunks per room, sleeping a total of 18 people.

For those that haven't been to the Lodge before it is only 50 meters from Claris airfield and only a few minutes walk to Kaitoke beach. Rental cars are available at the airfield for reasonable rates to give you access to the rest of the Island.

Try some of the many activities offered on this one of the more remote Islands in the Hauraki Gulf. Diving, fishing, bush walking, kayaking, surfing, mountain biking, lazing in hot pools and many other exciting things to do. Take day flights to the numerous airfields and Flying NZ Clubs within easy flying distance from here.
