# SAFARI

2010

*A ten day air trek around  
New Zealand*

**Promoting  
The Life Flight  
Charitable Trust**

For more information go to [WWW.FLYINGNZ.CO.NZ](http://WWW.FLYINGNZ.CO.NZ)

TIMARU + RANGIORA + OMAKA + MOTUEKA

The organising committee of  
the  
**AROUND NEW ZEALAND AIR SAFARI**  
is delighted to announce.

That the Air Safari 2010 Charity  
will be  
The National Air Ambulance Arm of the  
Life Flight Trust

We look forward to working with them on  
this very worthy cause.

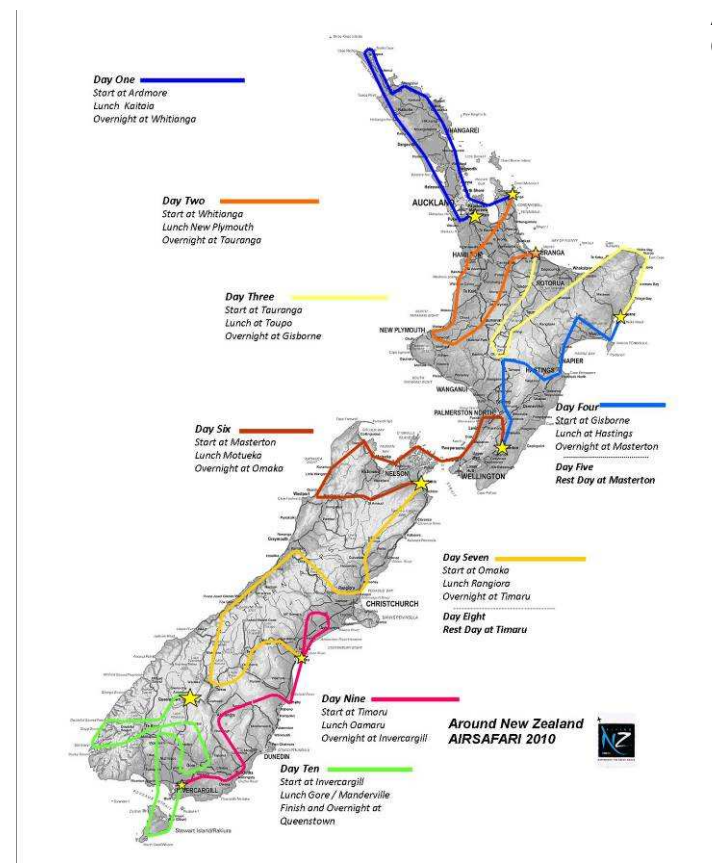

Life Flight provides an intensive-care-level air ambulance service transporting critically ill patients who urgently require specialist medical care only available in New Zealand's major centres.

Half of Life Flight's air ambulance missions are to meet the needs of children and premature babies who must be flown to Auckland for the urgent specialist care that they are unable to get anywhere else in New Zealand. These children are from all over the country and without speedy access and full intensive care team in the air, would struggle to survive or recover from their traumas.

The Life Flight NZ Air Ambulance Service is provided by two aeroplanes. One is based at Wellington International Airport (operating since 1983), the other at Auckland International Airport (operating since February 2005). This is a fully dedicated nationwide air ambulance service flying an average of three missions every day.

These same Metro's will be travelling along with us on the Air Safari when able and will be promoting the National Air Ambulance at each of the stops made along the route

It is anticipated the route will cover 2720 nm. From Ardmore to Queenstown
